

Optimed Software Corporation, a QHR Technologies Company, is looking for a:

Systems Developer – Toronto

Optimed Software Corporation is a wholly owned subsidiary of QHR Technologies and is based in Kelowna, BC. Optimed's product, Accuro® EMR, is an electronic medical records (EMR) software application for physicians and their clinics. The primary business of Optimed Software Corporation focuses on the development, marketing, distribution and delivery initiatives for Accuro to clinics across Canada. Accuro is the highest customer rated National EMR software package in Canada.

Position Summary:

Reporting to the development manager, the systems developer will be responsible for task based programming assigned by the Development Manager and/or Lead Developer. The development projects will largely be based around the product, Healthscreen HS Practice; other projects may be assigned from time to time.

HS Practice is a physician's clinic software program installed in clinics across Ontario.

Essential Functions:

- Design, develop, test and document HS Practice interfaces.
- Refine and improve Healthscreen's automated interface deployment software to ensure that upgrades to existing client systems are controlled and managed properly.
- Conduct platform architecture refactoring where needed.
- Write specifications for clients, update documentation and support sales teams in scoping and estimating new interfaces.
- Driving quality through improved automated test coverage, documentation, and training.
- Learn, absorb, and evangelize new technologies and methodologies.
- Participate in product management strategy sessions
- Supporting the customer centric culture of Optimed
- Using Java, Javascript, Subversion, junit, JIRA, Maven, Hudson CI on a regular basis.

Qualifications:

- Bachelor's degree in Computer Science (Software Engineering preferred).
- Must enjoy working with Agile / XP work processes including prototyping, code reviews, continuous integration, test driven development, and frequent iterative releases.
- OO Design (Usecases, Patterns, Refactoring, etc.).
- Experience with Java (or other high level language) is required.

- Strong abilities in SQL (any of the following are also valuable: MSSQL, Sybase, or Oracle).
- Networking and Windows Operating Systems considered an asset.
- Experience with the HL7 protocol considered an asset.
- Experience with Spring IoC, Hibernate and AXIS2 also an asset.

Preference will be given to those with previous Electronic Medical Record experience.

Total Rewards:

We offer a competitive compensation package with flexible benefits.

Please submit your cover letter and resume to Lindsay Barrett at: lbarrett@QHRTechnologies.com

Thanks to all those that apply. Only those chosen for an interview will be contacted.

QHR Technologies Inc. has a vision of being a Top 100 Technology Company and a Top 100 Employer. Our results and culture all point to personal growth, opportunities and success. Optimed Software Corporation is a wholly owned subsidiary of QHR Technologies Inc., a publicly listed company (TSX-V:QHR). QHR Technologies was recently recognized by the 2010 Branham 300 list in the 'Top 5 Pure Play Healthcare Companies' list, the 'Top 10 Growth Companies' and the 'Top 20 Movers and Shakers' list as well as listed on the 'TSX Venture Exchange Top 50' list. As well, QHR Technologies was recently named as a finalist in B.C.'s 'Technology Impact Awards (TIA's) in the category of 'Emerging Company of the Year' for its outstanding performance as a technology enterprise. The TIA's recognize British Columbia's most innovative and dynamic technology companies. QHR Technologies Inc. has focused on the business development of promising Canadian technologies to meet the needs of emerging or under-developed markets. This strategy has generated profitable revenues, while earnings have allowed QHR to prosper and grow on behalf of shareholders. Capitalizing on its management expertise, QHR continues to source new markets and technologies through mergers or acquisition.
